

Green Wonders

September 7, 2006

Hi all-

Last week we got some pictures of the overpass near the Griffith parking lot, and decided that the steps are the particularly hazardous spots.

Eric and Zach are going to do some googling and look into methods/costs/etc. for texturing, resurfacing, or replacing the steps.

Sophie and Gina are going to check back with the county to see what constitutes a "major" renovation (that would necessitate making the overpasses handicapped-accessible).

Barb is going to print out the pictures and bring those for the group, and will also bring pizza to the next meeting for lunch.

Next meeting is Sept. 27th, at lunch in E-12.

Thanks!

Barb

P.S. If you haven't already turned in your ropes course form, make sure to get those to Will immediately. No form=no ropes course for you!

Let me, Will, or one of the other adults know if you need to get a form.
